

# Fastmount Concealed Panel Mounting

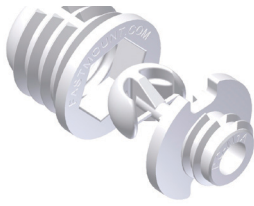

## Perfect Alignment Every Time Revolutionary Panel Mounting Systems

Combining speed, versatility and an outstanding aesthetic result, the Fastmount system enables designers, installers and contractors to re-think the interior panelling process.

- Easily remove and refit panels in any sequence, time after time
- Designed to perform in the marine, architectural, aviation and vehicle industries
- Consistently superior panel finish with allowances for panel flex and movement
- Secure mounting in all conditons with precise positioning

# Fastmount Clip Range

## Standard Range THE ORIGINAL AWARD-WINNING HIDDEN FASTENERS

The International award winning Fastmount® Standard Clip System is ideal for removable interior ceiling and wall panels. Designed and made in NZ, all clips are interchangeable. This hidden fixing system allows for flexing and expansion of panel and support frame.

## Low Profile Range FOR A FLUSH FINISH

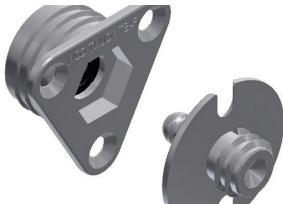

Ideal for applications that require less depth compared to the Standard Clip range, with lateral movement in female clip half. Interchangeable within the range. Installs into various materials such as MDF, drywall and foam core panels. Ideal for removable interior wall panels, acoustic panels, bedheads, thin walled panels and curved panels.

## Very Low Profile Range ENHANCED MINIMALISM

Perfect for mounting removable thin interior wall panels and facings, these clip sets require less depth compared to other Fastmount™ ranges. No special installation tools are required. Designed and made in NZ the clip sets may be adhesive and/or screw fixed. Ideal for mounting panels where no drilling is preferred. Typical applications include interior wall panels, bed heads, inspection panels and furniture.

## Metal Range ROBUST CLIPS ORIGINALLY DESIGNED FOR SUPERYACHTS

These metal based clips are specifically designed for demanding interior applications requiring fire protection and heavy load bearing. Patent Pending.

## Stratlock Range HEAVY DUTY WALL AND CEILING PANELS

The Stratlock Range is a heavy-duty panel mounting solution for installing heavy interior panels mounted into aluminium or steel extrusion framework. With no special installation tools required, the Stratlock Range is a hidden fixing that installs rapidly into the framework and panel, provides 360° adjustment of the panel before locking into place, and boasts our highest shear strength and pull out load. Patent Pending.

## Textile Range SOFT FURNISHINGS, FITTED HARD AND FAST

The Textile Range has been specifically designed for the mounting of soft textiles to hard surfaces. The hidden system locks into place, and can only be removed by unlocking the clip, providing added security under high winds and seas. Makes cushions simple to install, remove and replace. Typical applications include sun loungers, exterior and interior cushions, seat bases and backs. Patent Pending.

**Designed and manufactured in New Zealand, the Fastmount system is patent pending and EU design registered.**

### Applications include:

- Hotels, universities and hospitals
- Custom yachts and motor yachts
- Commercial & residential interiors
- Recreation vehicles
